We are committed to a workforce that embraces, respects and celebrates the distinct authentic personalities and abilities of each individual. We seek candidates, community partners, volunteer groups, and interns who add representation to our workplace because we believe it broadens our capacities and our horizons.

PBS Charlotte, a viewer supported service of Central Piedmont Community College is also committed to creating, selecting, and presenting programming and engagement activities that are reflective of the communities we serve and to the development of content that addresses the needs of unserved and underserved audiences.

Each year, we track our progress with three public reports that can be found on our website at <https://www.wtvi.org/about/reports/>. These annual reports are the:

*Employee Statistics report

*EEO Public File Report (also located on the online FCC Public File)

*Recruiting Report (also located on the online FCC Public File)
